THE NALROW GALGE LOIDS

An excellent interprise wen't be a rail road from East Portland to pass through Powell's valley and into Ciukamas county across Clear creek and through the Molalia Rock creek and Butte creek region to Silver ton The desirability of such a road has often been set forth through The Orre Silve It would develop a country that he savet no rairoad fedaus and such roal would be tech upper again. The road is savet no rairoad he of the secure for the road a sparate and andependent traffic at a rish in spira thure and timber, and we think me out and the road would coverable. think in east and the road would certainly become a good property within a short time it is said that the Scotch company are thinking of reconstructing that narrow gauge system in the Willamette safety if he swould build this road from Last Porfind to Saveston they would then have a continuous line on the Last Side to the head of an independent business. The piece of read from Silverton to the Will uncite river opposite the mouth of the Y could would then be usees and could be abundanced.

The West 3 de narrow cause wou d be open training,—so that as long as human name premains as it is to day elaborate public celebrations of great events in the history of a long training of great events in the history of a long training to the long training training training to the long training traini It seems to us that it would be good busi detours it would make would be about fifty mites in anoth. By expenditure of the money necessary to construction of this road the Scotch Company could recover and restore the property nasted by the uncertunate course that has been pursued, and the course manufactures.

country would receive large benefits from it.

The Opposits trusts that the centleman who has come from Scotland to took into the condition of the property will extonine the country on the route indicated from East Portland to Silverton and see his way clear to a recommendation that this line be that under constitution. The heavest ways put under construction The narrow gauge by ten may easily be built up as 12 duable properly occupying a country that needs its service and intile subject to the competition

A Washington correspondent observes that the most striking contrast between the pre ent and four years ago in that a to is seen in the type of politicisms that hair, about hotel lobbies and in the doorsteps of memb roof co agrees. Now the valt in jointy are unmistaliable. Northern men. Bour are unmistable Northern men Four bears ago the Southern politician was ad preme The long faired weedy tobacco chewing old fashioned begadiers were clearly on top. They had captured Washington and forced even the younger element from their own section into the back ground. The result of the election last November flurned them to private nic and lingueforth they will live only upon the pages of flurned in congress for white but not in force sufficient to exercise any percopuble influence upon legislation.
